The "Bubble Shooter" is an massively multiplayer on-line arcade game that captures action-packed fun and education effect altogether.

Though the basic mission of a player is to shoot, capture and destroy evil monsters, fighting is not enough to win this game.

If a player truly want to beat enemy forces, gain reputation, and finally prove himself as a real warrior at this fantastic world, he needs to find and complete the Word Gear scattered around the world by an evil magician.

At the start of the game, the player is given a Word to be gathered at this stage.
Each monster carries a Word Gear and the player can acquire it by defeating the monster.
Each player is equipped with a power-charged bubble gun that enables him a force to confront these evil enemies.
Since the player has togather correct Word Gears, he needs to understand and remember given word all through the game play.
With this intuitive mechanism, the game enables a player to upgrade his level of vocabulary while enjoying a fun and speedy gaming experience.
